

# Rapid Connect

Take control of your production with Rapid Connect – our intelligent analytics platform. Minimize unplanned downtime, optimize production, and ensure smooth operations. Create customized dashboards, access real-time insights, and stay connected to your equipment at all times.

- Real-time monitoring and updates.
- Idle-stop functionality.
- Local data storage.
- Customizable dashboards and alerts.
- Energy-saving performance.

NEW

# Predict

Combine it with **Predict**, featuring Matrix and Stream LED displays, for instant visibility. Mounted on or near the granulator, Predict gives operators a clear, real-time overview, enabling efficient feeding, quick adjustments, and energy-optimized performance.

Specifications	Rapid Connect
Power supply	24VAC, 24VDC & 230VAC
Bus protocol	Modbus
Digital input	8 pcs
Digital output	2 pcs
Analog input	2 pcs (2pcs 4-20mA)
CT input	2 pcs (1A and 5A)
PT100	1 pcs (Temperature)
Wifi	2,4Ghz
